Designed to meet the needs of children ages 3 to 12, this course will develop a high comfort level in the water and a readiness to swim, and for those children who are developmentally ready, it will teach functional swim skills. This class approaches teaching swimming through creative, fun activities in the water. Students work toward developing the five competencies and progress toward achieving the benchmarks at their own pace in a small-group setting.

All swimmers will be swim tested their first day of class to determine the appropriate color level to begin. Each session includes six 45 minute lessons. Swimmers will advance over the course of the session when they demonstrate the skills necessary to make the next step in the progression.
