

Upon graduating from our Star Babies/Star Tots program, your child can move on to our Starfish Swim School.

Our swim school is taught in a group setting, and is comprised of five skill levels where students progress from basic swimming skills to advanced stroke techniques for competitive swimming.

*No Wednesday class on Nov. 21

**No Thursday class on Nov. 22

*** No Saturday classes on Nov. 10 & 24 and Dec. 1

About Our Program

StarBabies™ (Adults and infants ages 6 months-18 months)

The purpose of this course is to develop in very young children a high comfort level in the water while at the same time training adults who accompany them in water safety and drowning prevention. This course does not teach children to become accomplished swimmers or to survive in the water; it does provide a confidence-building, fun, and loving experience. One adult must be in the water with each child. Swim diapers required.

StarTots™ (Adults and ages 19 months - 36 months)

Designed to meet the needs of children ages 19 months to 36 months, this course will develop a high comfort level in the water and a readiness to swim, and for those children who are developmentally ready, it will teach functional swim skills. This class approaches teaching swimming through creative, fun activities in the water. Students work toward developing the five competencies and progress toward achieving the benchmarks at their own pace in a small-group setting.
